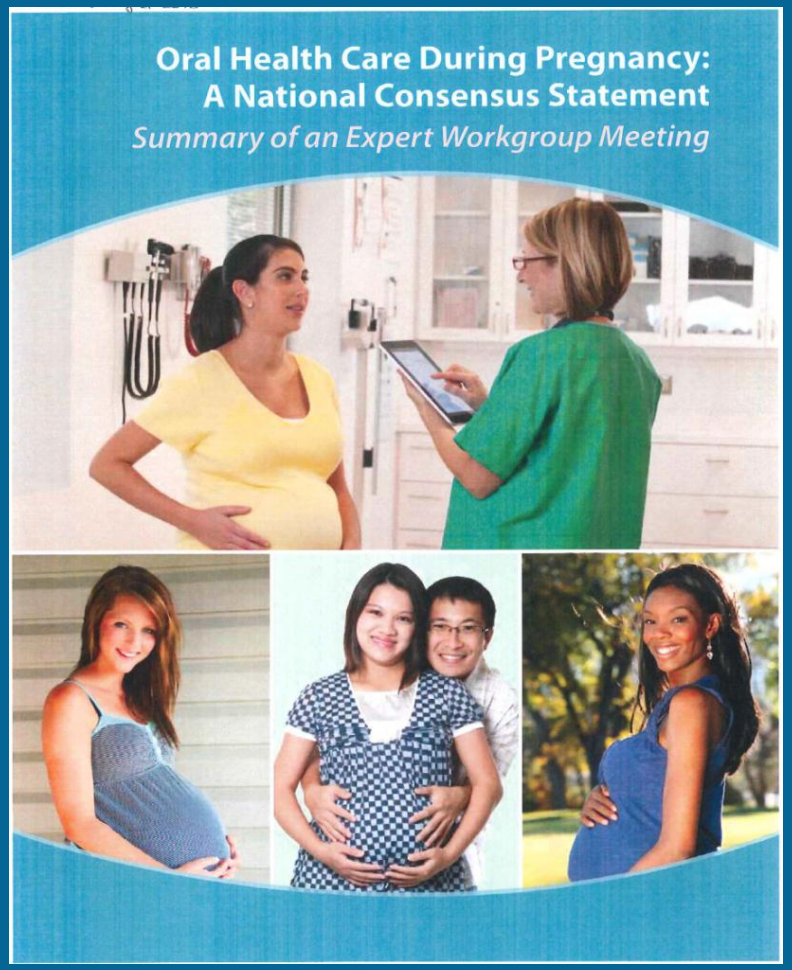
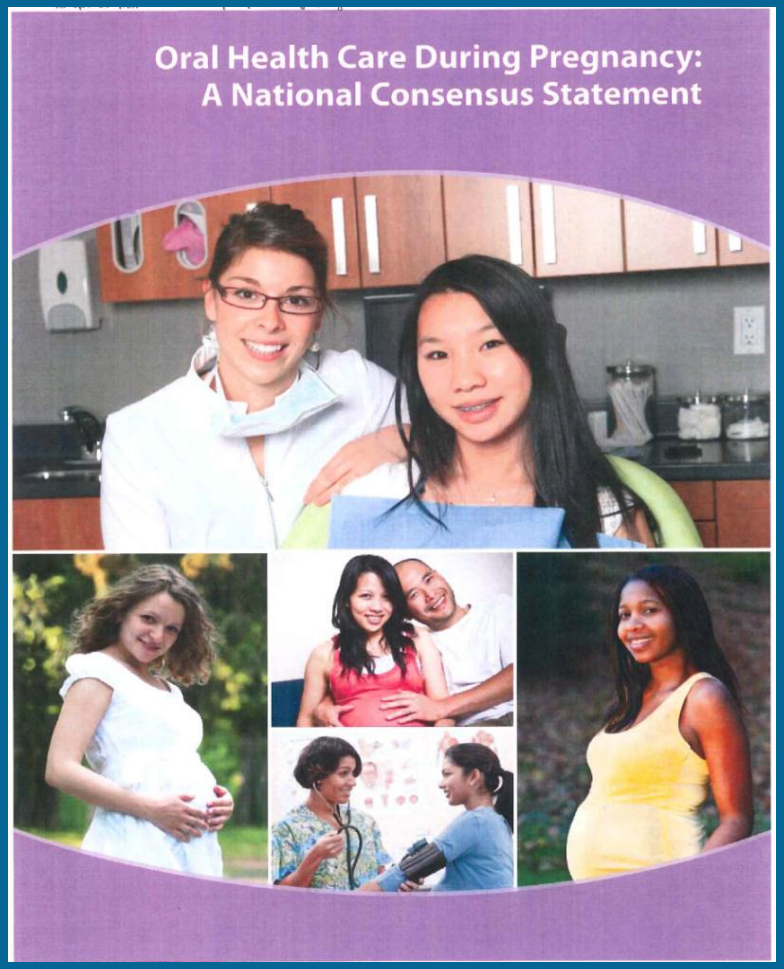
- By Discipline:
  - General: $10,413,447
  - Pediatric: $ 8,295,118
  - Public Health: $ 541,502
  - Hygiene: $ 186,830
- FY 2012 New and Continuation: $19,436,887

Bureau of Clinician Recruitment and Service

- National Health Service Corps
  - Loan Repayment Program
  - Scholarship Program
- Faculty Loan Repayment

Perinatal Oral Health





U.S. Department of Health and Human Services
HRSA
Health Resources and Services Administration

Perinatal Oral Health

- MCHB is developing a plan to expand the *Oral Health Care During Pregnancy: A National Consensus Statement*
- Dissemination and implementation- June 2012
- Summary of Expert Workgroup Meeting- July 2012
- Oral Health Care During Pregnancy: A National Consensus Statement- April 2013
  - http://www.mchoralhealth.org/materials/consensus_statement.html

Perinatal Oral Health

- There will be a specific session Wednesday, 10:00 a.m. – 11:30 a.m.

Promoting Integrated Health Care and Interprofessional Collaboration: The Oral Health Care During Pregnancy National Consensus Statement

Oral Health Measures, Metrics, and Meaningful Use

HRSA Measures Management Review Board (MMRB)

Goals:

- Align and harmonize measures
- Attain measure parsimony
- Identify a “starter set” of quality measures
  - Selected 44 measures in 13 topic areas

HRSA Starter Set

- Children Who Received Preventive Dental Care (NQF # 1334)
- Children Who Have Dental Decay or Cavities (NQF # 1335)

- Opportunities for Health IT and Oral Health in the Safety Net and for Special Populations

Oral Health IT Toolbox

Share

Oral health care is an important component of overall health and wellness. There is a growing recognition about the importance of integrating oral health and primary care. The use of health information technology (health IT) provides an unprecedented opportunity to enhance the intersection of oral health and primary care. The goal of this toolbox module is to provide stakeholders with information, tools, and resources regarding oral health and health IT. The module seeks to illustrate:

- Health Resources and Services Administration (HRSA) and U.S. Department of Health and Human Services (HHS) oral health priorities;
- The importance of oral health in the safety net;
- Integration of oral health primary care through health IT;
- Health IT and facilitation of the delivery of high quality oral health care; and
- Meaningful Use and its applications to oral health providers, including primary care providers delivering preventive oral health care.

Health IT offers the potential to expand and improve quality and access to care, enhance reporting and accountability, engage patients in their own care, and enhance care coordination among providers

About

Health Information Technology Toolboxes help health centers, safety net providers, and ambulatory care providers with electronic and online resources and technical assistance to improve patient care. More>
