OVERVIEW

- ❖ National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP)
- ❖ Efforts to promote coordination and integration in state health departments
- ❖ Efforts to promote coordination and integration within NCCDPHP
- ❖ Opportunities for oral health programs

CDC NCCDPHP Divisions

- ❖ Division of Cancer Prevention and Control
- ❖ Division of Community Health
- ❖ Division of Diabetes Translation
- ❖ Division for Heart Disease and Stroke Prevention
- ❖ Division of Nutrition, Physical Activity, and Obesity
- ❖ Division of Oral Health
- ❖ Division of Population Health
- ❖ Division of Reproductive Health
- ❖ Office on Smoking and Health

Coordinated Chronic Disease Prevention and Health Promotion

- ❖ More effectively address common risk factors, e.g. poor diet, physical inactivity, obesity, smoking
- ❖ Shift to systems and environmental approaches
- ❖ Improve program efficiencies
- ❖ Sharing of resources among categorical programs
- ❖ Increase flexibility to address context
- ❖ Improve CDC technical assistance

Enhancing Coordination

- ❑ Purpose: Work collaboratively across NCCDPHP and with state and community partners to efficiently and effectively implement chronic disease prevention and health promotion strategies
- ❑ Goals:
 - ❑ Implement a focused Chronic Disease Prevention & Health Promotion agenda
 - ❑ Maximize efficient use of resources
 - ❑ Improve support for and share technical expertise with states and communities
 - ❑ Support chronic disease prevention and health promotion programs in every state
 - ❑ Improve population health

Chronic Disease Domains

- ❖ **Domain 1: Epidemiology and Surveillance:** Gather, analyze, and disseminate data and information and conduct evaluation to inform, prioritize, deliver, and monitor programs and population health
- ❖ **Domain 2: Environmental Approaches:** Approaches that promote health and support and reinforce healthful behaviors
- ❖ **Domain 3: Health System Interventions:** Improve the effective delivery and use of clinical and other preventive services
- ❖ **Domain 4: Community-Clinical Linkages:** Improve community-clinical linkages ensuring that communities support and clinics refer patients to programs that improve management of chronic conditions

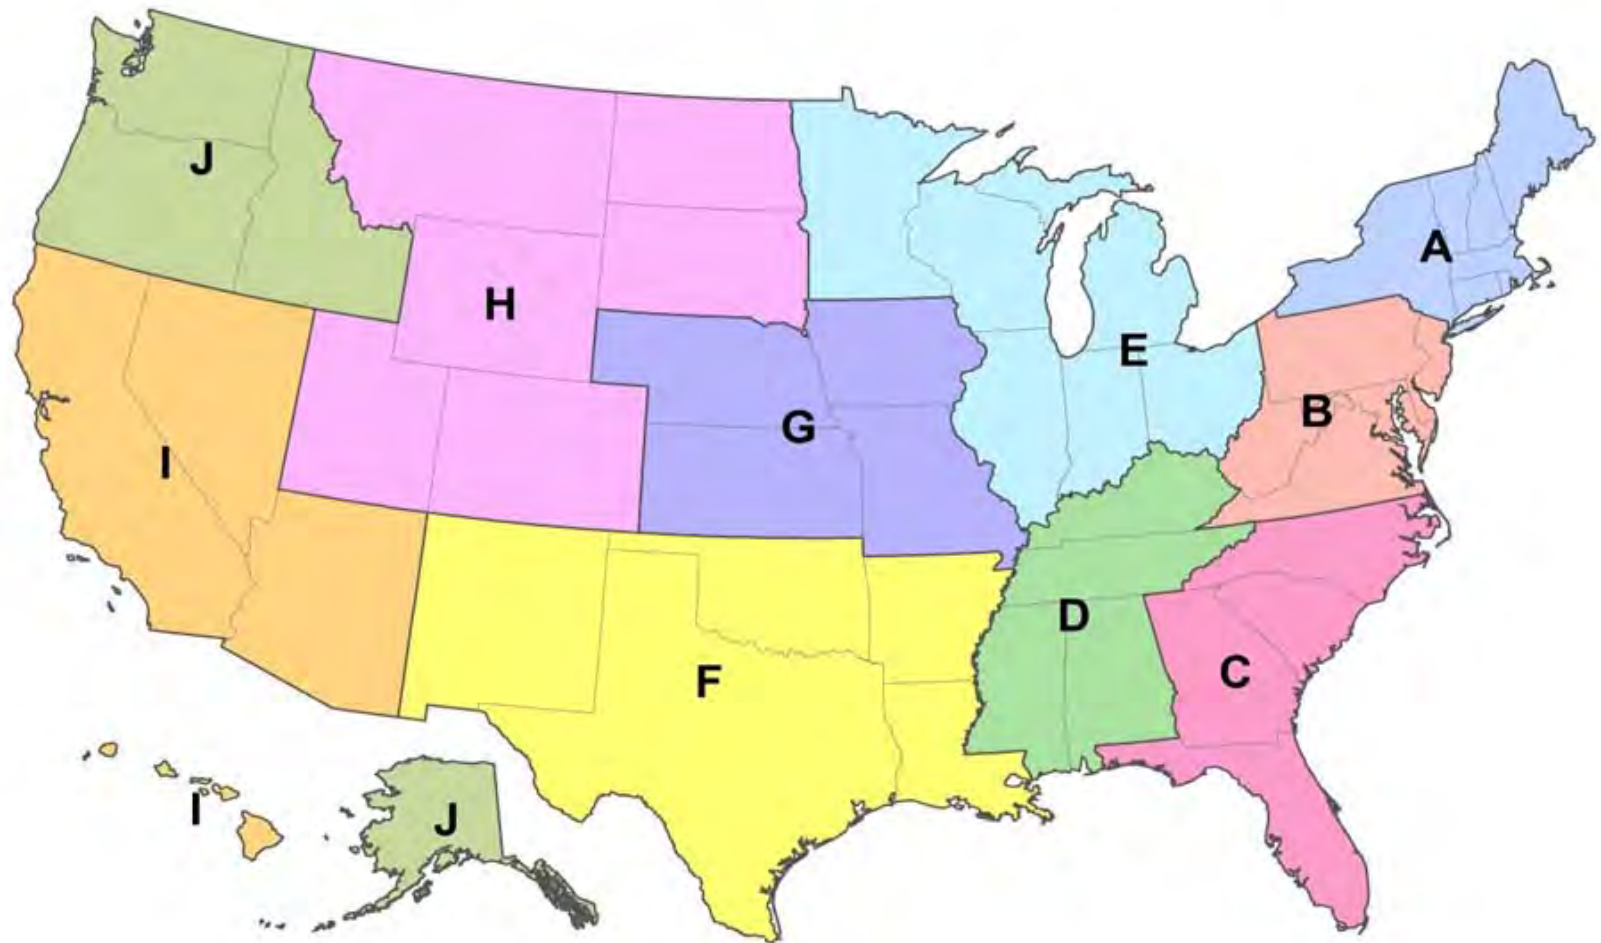

History of Coordination Efforts - funding

- ❖ 4 states – Pilot negotiated agreement for flexibility in program integration
- ❖ 50 states supplemental funding (FY 2011) to:
 - ❖ Develop a state chronic disease plan
 - ❖ Develop assessment & management plan for leadership in chronic disease prevention
 - ❖ Build capacity and achieve changes in 4 domains
- ❖ Combined Funding Announcement for diabetes, heart disease and stroke prevention, nutrition and physical activity, and school health (FY 2013) (FOA 13-1305)

Coordinated Efforts within NCCDPHP

- ❖ Create Coordinated State Support Branch in Division of Population Health
- ❖ Formation of Regional Teams to improve technical assistance (TA)
- ❖ Incorporate coordination language into all new funding announcements
- ❖ Realign program Project Officers to Regional assignments
- ❖ Staffing of Regional Team Coordinators

National Center for Chronic Disease Prevention and Health Promotion Regions

Coordinated Efforts within NCCDPHP

- ❖ Training of program Project Officers
- ❖ Periodic Regional Team meetings within NCCDPHP
- ❖ Conduct Regional TA Workshops for state Chronic Disease Directors
- ❖ Partner with NACDD to develop Chronic Disease Events Calendar for program training opportunities

Chronic Disease Events Calendar

This calendar contains training and technical assistance events related to the [National Association of Chronic Disease Directors](#) and CDC's [National Center for Chronic Disease Prevention and Health Promotion](#).

Opportunities for Oral Health Programs

- ❖ Provide input into state chronic disease plan
- ❖ Flexibility to share resources/positions
- ❖ Broaden partnerships and support
- ❖ Joint program efforts, e.g., BSS and BMI, tobacco control, diabetes
- ❖ Leveraging and synergies
- ❖ CDC oral health funding or location in state Chronic Disease Section not required
